

XLR LOCKING 5 PIN CONNECTOR

GOLD PLATED CONTACTS

Io Audio Technologies' 5 pin XLR connectors showcase sleek black metal housing that allows for excellent RF protection. Precision machined, one piece, gold plated contacts are standard. Available in Male or Female variations, all with solder connections.

IO-XLR5-M-BKAU

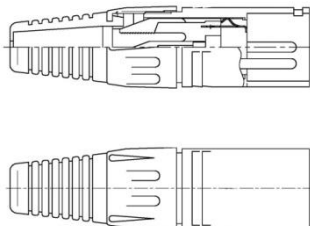

IO-XLR5-F-BKAU

SPECIFICATION

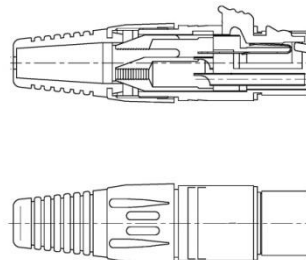

- Gender: **Male, Female**
- Capacitance Between Contacts: $\leq 2\text{pF}$
- Capacitance Between Contacts and Ground: $\leq 2\text{pF}$
- Contact Resistance: $< 7\text{m}\Omega$
- Insulation Resistance: $\geq 5000\text{M}\Omega$
- Dielectric Strength: **1500V @ 60s**
- Rated Current/Voltage: **7.5A/125V AC**
- Lifetime: **> 1000 mating cycles**
- Contact Plating: **.05 μm Au**
- Wiring: **Solder Contacts**

FEATURES

Io Audio Technologies' 5 pin XLR connectors feature sturdy die-cast shells and gold plated contacts offering a durable connection. Their compact design includes a hard plastic insert that serves as a primary strain relief by clamping onto the cable jacket while the black rubber boot protects the junction from excessive bending. These 5 pin XLR connectors are also available in a silver plated variation (IO-XLR5-X-BK).

APPLICATIONS

5 pin XLR connectors are a perfect solution for applications requiring a rugged and dependable locking connection. Because the housing construction is threaded, the connectors require no tools for assembly, making them ideal for onsite termination and allow the user to be able to troubleshoot connection issues quickly. This connector is perfect for use in balanced audio, DMX, low voltage power, and control applications.
